

INTRODUCTION

YDP manufactures and sells mold base which is literally the base of mold.

With a business motto of "our products' quality and due delivery time are directly related to the competitiveness of customers", we have ceaselessly invested and strived to advance. As a result, we have been a strong leader in the Korean market of medium, large and extra large-size mold base, and mold steel for plastics, contributing to development of the mold industry.

YDP's mold base is used in mold of end-user companies such as Samsung Electronics, LG Electronics, Hyundai Motors, Kia Motors, GM, Nissan, Toyota, Honda, Mazda and their contractors. As an agency of global mold steel makers, YDP has strengths in shortening delivery period and cutting costs, based on vast and various inventory.

YDP promises to continue to provide customers with the best value and competitiveness by manufacturing world best products.

Dongheon Lee, CEO

History

- 1982.06. Established Young Deung Po Special Steel
- 1983.10. Started developing mold steel with Doosan Heavy Industries (former Han Guk Heavy Industries)
- 1984.04. Succeeded in producing mold steel domestically and became the 1st agency of Doosan Heavy Industries
- 1985.04. Established a Busan branch
- 1986.01. Completed the construction of Ansan factory and produced large mold base
- 1986.07. Changed the company name to Young Deung Po Special Steel Precision Inc.
- 1987.01. Established a Daegu branch
- 1989.06. 1st project for automating facilities of Ansan factory
- 1990.06. Started operation of machine in Busan branch
- 1994.03. 2nd project for automating facilities of Ansan factory
- 1995.11. Designated as an enterprise for skilled industry workers by the Military Manpower Administration
- 1996.08. Selected as a model enterprise for promotion of CAD/CAM by the Small and Medium Business Administration
- 1998.07. Relocated the head office to Ansan factory
- 1998.09. Selected as an outstanding small and medium business by Shinhan Bank
- 1998.10. Selected as an outstanding small and medium business by Industrial Bank of Korea
- 1999.06. Selected as a promising small and medium business by Industrial Bank of Korea
- 1999.11. Awarded a prize from the Ministry of Commerce, Industry and Energy on the 3rd Mold Steel Day
- 1999.11. Awarded a trophy for 1 million dollar export and a prize from the Prime Minister on the 36th Trade Day
- 1999.11. Awarded a prize from the Gyeonggi Governor on the 36th Trade Day

Certificates

- 2001.06. Selected as a promising small and medium business by Gyeonggi-do
- 2001.07. Jongho Lee inaugurated as president and Kwangjae Lee inaugurated as CEO
- 2001.11. Awarded a trophy for 5 million dollar export on the 38th Trade Day
- 2002.04. Acquired Moknae-dong factory (396-3, Moknae-dong)
- 2002.12. Started operation in enlarged Moknae-dong factory
- 2004.07. Started operation in newly built Busan factory
- 2004.11. Awarded a trophy for 10 million dollar export on the 41th Trade Day
- 2005.01. Obtained the certificate of ISO 9001
- 2005.06. Changed the company name from Young Deung Po Special Steel Inc. to YDP Inc.
- 2007.06. Won approval for establishing the company-affiliated research and development institute
- 2008.04. Acquired the certificate of innovative small and medium business (Inno-Biz)
- 2009.11. Chosen as the "Man of Mold" on the 13th Mold Day
- 2010.12. Obtained the certificate of ISO 14001: 2004
- 2011.07. Started operation in the newly built Busan branch (Hwajeon complex)

MOLD BASE

YDP is providing the best-quality mold base in the market in the shortest period, based on hand-picked material, the latest manufacturing facilities, and accumulated technologies.

Features & Strengths

- 100% customized production
- Extended product line-up (small, medium, large, and extra large-size mold base)
- Korean market leader in medium, large, and extra large-size mold base
- One-stop production system until precise processing
- The shortest possible delivery period
- The latest manufacturing facilities (the largest in Korea)
- Mold base for cars (bumper, inpanel, fillar, garnish, lamp, etc.)
- Mold base for home appliances (TV, refrigerator, air conditioner, washing machine, etc.)
- Mold base for extra large mold steel (pallet, SMC, etc.)
- The maximum CNC processing size: 3,000 mm x 2,500 mm
- The maximum milling processing size: 4,000 mm x 2,400 mm

MOLD STEEL

YDP succeeded in developing mold steel domestically for the first time in Korea in cooperation with Han Guk Heavy Industries (present Doosan Enerbility). As the largest mold steel seller in Korea, YDP is contributing to profits of our customers and development of the Korean mold industry.

Features & Strengths

- Direct buying from global makers which guarantee the best quality
- Having more than 40 types of steel in all sizes at all times (No. 1 seller of mold steel in Korea)
- Having extra large size mold steel (for bumper and inpanel)
- Newly built factory for raw material, introducing the latest sawing machine (Circular/Gantry-Type)
- Optimal cutting with various cutting facilities & system for short delivery period
- Cutting know-how that has accumulated for a long time
- Maximum saw cutting size: 2,500 mm x 2,600 mm
